EDITOR'S DESK

“It is not enough to be up to date, you have to be up to tomorrow” are the wise words of Ben- Gurion, the architect of modern Israel. With the pandemic creating paradigm shifts in the educational system, it has become to need of the hour not to be just up to date but be up to the future in research and innovation. Understanding this, our professors have kept abreast of technology, submitted many research proposals, published and presented research papers, taken active part in refresher courses, online courses and workshops etc. Taking the cue from their teachers, our students have also explored their opportunities and excelled in various arenas. In spite of the limitations created by the extended lockdowns, the college has kept its morale and spirits high and had celebrated all the important days and events with meaningful programmes. This issue of JACNEWS is a record of all these and more.
