## EDITOR'S DESK

*Small acts done with noble intentions become powerful agents of change and growth. IAC has always believed in the power of starting small to achieve great things and make tremendous changes. In the current educational scenario too where quality is predominantly determined by the quantity of achievement, to keep abreast with the needs of the system, our college and its stakeholders have steadily taken small steps in the right direction. These consistent efforts in innovative teaching-evaluation methods, research activities, patents and student achievements have procured the college, a coveted place in the roadmap of higher education. This issue of JACNEWS is a record of all these achievements and accomplishments. Happy reading.*
