

1. Title of the Practice

Red Ribbon Club

2. Objectives of the Practice

- ❖ To create awareness of HIV / AIDS
- ❖ To produce social responsibility among the students

3. The Context

The awareness on HIV / AIDS is necessary for the society in maintaining healthy individuals. There is a need for prevention and safety measures for HIV / AIDS.

4. The Practice

RRC organized Blood Grouping Camp, Programme on Healthy Education, Awareness on HIV / AIDS, Awareness about tuberculosis, importance of blood donation, yoga demonstration, adolescent health education were conducted for students and people of the locality.

5. Evidence of Success

Students met inmates of Jeevan Jothi with HIV / AIDS positive patients and they rendered their help to them. By organizing Blood Grouping Camp, students were able to find out their blood group.

6. Problems Encountered and Resources Required

There were practical difficulties to conduct more training programmes since tuberculosis was an infectious disease.

7. Notes (Optional)

Along with HIV / AIDS awareness programme “Risk Factors and Control Strategies of Global Infectious Disease – Tuberculosis” were given to the students and local people.
