Awareness Program on "Food Adulterants"

One-day event on 19.07.2025 at Thamaraiikulam

33 students of III UG Chemistry participated.

Students of III B. Sc Chemistry

Ms. S. Maria Esther, Assistant Professor in Chemistry explained the serious issues of Food adulterants. It is very harmful substances when added to food items that can cause serious health problems. Common adulterants like lead chromate, methyl yellow, formalin, and detergents can lead to food poisoning, digestive issues, organ damage, and even cancer. Regular consumption of adulterated food can harm the liver, kidneys,

and nervous system, especially in children and pregnant women. To stay safe, it's important to buy food from trusted sources and be aware of simple detection methods. Selvi Sujithra and Selvi Girija of III B.Sc. Chemistry demonstrated the detection method to find the original chili powder and adulterant powder. Students are actively participated

## COMMERCE WITH COMPUTER APPLICATION

**Staff in charge: Mrs. J. Mariya Brindha**

The main goal of this program is to help villagers understand how important health and cleanliness are for a happy life. It aims to teach good habits like washing hands, keeping homes and surroundings clean, eating healthy food, and drinking clean water. The program also encourages regular health check-ups and vaccinations. By spreading awareness, we hope to reduce illness and make the village a healthier, safer, and happier place for everyone.

One-day event on 20<sup>th</sup>July, 2025 at B.Com CA Department

40 students from III B. Com CA were participated

Ms. S. Vaishnavi Devi Asst Professor in B. Com CA

40 students were benefitted.

The “Healthy Village, Happy Life” program was successfully conducted with enthusiastic participation from the students. The session focused on teaching the importance of good health, personal hygiene, and keeping the environment clean. The students actively listened and engaged in discussions about habits like handwashing, eating nutritious food, and maintaining cleanliness.

Many students shared that they learned new and useful information, especially about how simple actions can prevent diseases and make their families healthier. The interactive activities and examples helped them understand the importance of a clean and healthy lifestyle. Teachers also noted that the program motivated students to adopt healthier habits at home and school.

Overall, the program was effective in creating awareness among students and inspired them to become health ambassadors for their families and community. Students and teachers expressed interest in more such educational sessions in the future.

No external organizations or government bodies were involved.

-----  
attached

In the future, we plan to educate students more about the importance of eating healthy food for a strong body and mind. We will organize workshops and activities that teach students how to choose nutritious meals and snacks. To support this, we will provide simple guides and tips on balanced diets that students can share with their families. We also aim to involve local experts like nutritionists to talk about healthy eating habits and the benefits of traditional, natural foods. Through these efforts, we hope to encourage lifelong healthy eating habits among students and their communities.

### **BUSINESS ADMINISTRATION**

## **ZOOLOGY**

**Staff in charge: Dr. S. Jarina Banu**

The objective is to enhance my students “World Lung Cancer Day” is observed every year on August 1 to raise awareness of lung cancer issues, students will actively participate in spreading awareness and educating others about this serious health issue. This initiative also aims to develop their sense of social responsibility, communication skills, and ability to contribute positively to public health awareness campaigns.

One-day awareness program on 1st August, 2025 in R.No 58

43 Students from III B.Sc. Zoology participated.

Jothi mani III Zoology (SF) delivered a special talk on lung cancer awareness.

A total of 43 students acquired comprehensive knowledge about lung cancer, including its risk factors, early symptoms, and preventive measures such as avoiding smoking, maintaining healthy lungs through regular exercise, and the importance of periodic medical check-ups for early detection. Students also engaged in interactive discussions, which allowed them to clarify their doubts and gain practical tips for promoting lung health within their communities.

Based on the students’ feedback, the program significantly enhanced their understanding of the global impact of lung cancer and reinforced the importance of adopting healthy lifestyle choices and undergoing regular check-ups for early detection. They shared that the interactive discussions and presentations helped them grasp the concepts more effectively and inspired them to be more conscious about lung health. Many students expressed that the sessions boosted their confidence in communicating health-related information and motivated them to spread awareness about lung cancer within their peer groups and communities.

No external organizations or government bodies were involved.

-----  
Attached.

We plan to organize future awareness programs in partnership with healthcare professionals and expand these initiatives to reach local communities. This approach will provide my students with opportunities to apply their knowledge in real-life situations while contributing to broader social awareness and community well-being

## **COMMERCE WITH COMPUTER APPLICATION**

**Staff in charge: Ms. S. Vaishnavi Devi**

The objective of conducting the class on Women's Equality Day was to raise awareness among students about the importance of gender equality and the historical struggles faced by women. The session focused on educating students about the significance of the 19th Amendment, which granted women the right to vote, marking a major milestone in the fight for women's rights. It also aimed to highlight the contributions of women in various fields such as science, politics, education, and social reform, encouraging students to appreciate and respect their role in society.

One-day event on 6th August, 2025 at

B. Com CA Department

43 students from III B. Com CA were participated

Ms. S. Vaishnavi Devi, Asst Professor in B. Com CA

43 students were benefitted.

The session on Women's Equality Day was well-received by the students and proved to be both informative and engaging. Students showed active participation during discussions and expressed their thoughts confidently on issues related to gender equality and women's rights. The historical background and real-life examples shared during the class helped them better understand the significance of the day. Activities conducted during the session encouraged critical thinking and promoted a sense of respect and inclusion among the students.

No external organizations or government bodies were involved.

-----

attached

To continue promoting gender equality and awareness, future sessions will include regular discussions and activities related to women's rights, leadership, and empowerment. We plan to organize guest lectures by women role models from various fields to inspire students. Debates, essay writing, and poster-making competitions will be introduced to encourage student engagement and creativity. Additionally, we aim to include gender sensitivity topics in our moral education and value-based learning programs. Collaboration with local organizations or NGOs working for women's welfare may also be considered for educational visits or interactive sessions. These initiatives will help students deepen their understanding of equality, respect, and inclusivity in both academic and social settings.

**Staff in-charge: Mrs. A. Kavia**

To educate my students about the significance of World Lung Cancer Day and to promote awareness about lung cancer prevention, symptoms, treatment, and the importance of early detection through a community engagement activity.

One-day awareness program on 1st August, 2025 at Language Lab.

30 students from III BCA participated.

Mrs. A. Kavia, Asst Professor, BCA; Dr. Sr. A. Arul Anitha, Head of the Department, delivered a special talk on lung cancer awareness.

30 students gained valuable knowledge about lung cancer, its risk factors, symptoms, and preventive measures such as avoiding smoking, maintaining lung health, and the importance of medical check-ups. The special address by the HOD enriched the program by highlighting real-life cases and the significance of awareness in combating lung cancer.

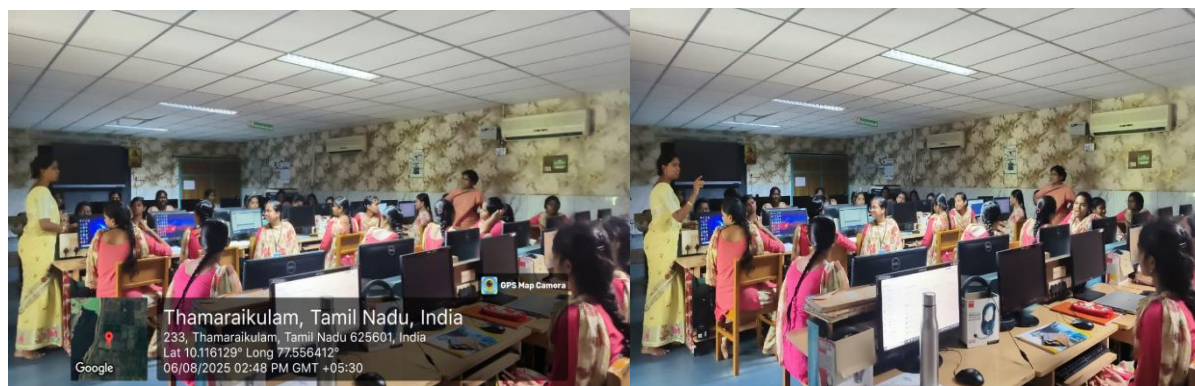

The program created awareness among students about the global burden of lung cancer and the importance of prevention through healthy lifestyle choices and early detection. Students actively participated in discussions and presentations, which improved their communication and awareness-building skills. They also appreciated the HOD's insights, which deepened their understanding and motivation to promote health awareness.

No external organizations or government bodies were involved.

-----

Attached.

I intend to organize future awareness programs in collaboration with healthcare professionals and extend the activity to local communities, thereby helping my students apply their learning in a broader social context.

In the future, we plan to make Independence Day celebrations even more engaging and educational for our primary students. We aim to include interactive activities such as quiz competitions, storytelling sessions about freedom fighters, and craft projects related to national symbols. We will also encourage more student-led performances and speeches to build confidence and communication skills. Additionally, involving parents and the local community will help create a more inclusive and impactful event. Our goal is to continue nurturing a strong sense of patriotism and cultural pride in our young learners through meaningful and creative celebrations.

The objective is to enhance my students "World Lung Cancer Day" is observed every year on August 1 to raise awareness of lung cancer issues, students will actively participate in spreading awareness and educating others about this serious health issue. This initiative also aims to develop their sense of social responsibility, communication skills, and ability to contribute positively to public health awareness campaigns.

One-day awareness program on 1st August, 2025 in R.No 58

43 Students from III B.Sc. Zoology participated.

Jothi mani III Zoology (SF) delivered a special talk on lung cancer awareness.

A total of 43 students acquired comprehensive knowledge about lung cancer, including its risk factors, early symptoms, and preventive measures such as avoiding smoking, maintaining healthy lungs through regular exercise, and the importance of periodic medical check-ups for early detection. Students also engaged in interactive discussions, which allowed them to clarify their doubts and gain practical tips for promoting lung health within their communities.

Based on the students' feedback, the program significantly enhanced their understanding of the global impact of lung cancer and reinforced the importance of adopting healthy lifestyle choices and undergoing regular check-ups for early detection. They shared that the interactive discussions and presentations helped them grasp the concepts more effectively and inspired them to be more conscious about lung health. Many students expressed that the sessions boosted their confidence in communicating health-related information and motivated them to spread awareness about lung cancer within their peer groups and communities.

No external organizations or government bodies were involved.

-----

Attached.

We plan to organize future awareness programs in partnership with healthcare professionals and expand these

initiatives to reach local communities. This approach will provide my students with opportunities to apply their knowledge in real-life situations while contributing to broader social awareness and community well-being.

To promote a spirit of cooperation and mutual support among village community members, encouraging them to work together to solve common problems, improve their living conditions, and build a stronger, more caring village.

One-day Program on 30th August, 2025 at Room No: 11 & 12

Ms. S. Vaishnavi Devi, Ass Professor, B.Com CA

The "Help Each Other" awareness program has a positive impact on students by promoting values such as cooperation, empathy, and social responsibility. Through participation, students learn the importance of working together and supporting one another in everyday situations. This not only strengthens their teamwork and communication skills but also builds their confidence and sense of leadership. As they engage in helping activities, students become more aware of the needs within their community and develop a deeper understanding of how small acts of kindness can lead to big changes.

Totally 29 students are benefited.

The "Help Each Other" awareness program was well-received by both students and the wider village community.

Students actively participated in the sessions and activities, showing enthusiasm and a willingness to work together.

Many shared that they felt more connected to their peers and more aware of the importance of helping others. Teachers observed noticeable improvements in teamwork, respect, and communication among students after the program.

Parents also appreciated the positive changes in their children's behavior at home and in the community.

No external organizations or government bodies were involved.

-----

attached

To continue the positive impact of the "Help Each Other" program, we plan to organize regular community service activities involving students, such as cleanliness drives, peer tutoring, and support for elderly villagers. Monthly workshops will be introduced to strengthen teamwork, leadership, and communication skills. We also aim to form student-led support groups in schools to encourage peer-to-peer help and emotional support. Collaboration with local leaders and NGOs will be explored to expand resources and reach. Over time, the goal is to make "Helping Each Other" a regular part of school culture and village life, ensuring long-term unity, empathy, and social growth in the community.

### **BUSINESS ADMINISTRATION**

**Staff in charge: Mrs. V. Anitha, Assistant Professor in Business Administration**

National Handloom Day is observed every year on 7th August. The objectives of National Handloom Day are to honor handloom weavers, promote handloom products, empower artisans financially, preserve cultural heritage, and boost the socio-economic development of the handloom sector by supporting traditional skills and raising consumer awareness of these unique and environmentally friendly products. Educating students about National Handloom Day helps them understand the value of traditional crafts, respect the efforts of rural artisans, and develop a sense of pride in our cultural heritage. This awareness can further extend to village communities, encouraging support for local weavers and

strengthening rural economies through the promotion of sustainable and indigenous industries.

An awareness program on National Handloom Day 30th August, 2025 in R.No : J20  
10 Students from III BBA participated.

Mrs.V.Anitha, Asst.Professor in BBA delivered a special talk on National Handloom Day.

The awareness program successfully deepened students' understanding of the importance of handloom products and the role of artisans in preserving cultural heritage. The session helped students recognize the eco-friendly nature of handloom, its contribution to sustainable fashion, and the need to financially empower weavers. Many participants expressed a sense of pride in India's traditional crafts and became more conscious about supporting indigenous industries. The program also encouraged them to think critically about consumer responsibility and the role of youth in promoting local products..

Students shared that the session was eye-opening and helped them appreciate the efforts of rural artisans. They found the discussion on sustainable and eco-friendly aspects of handloom especially relevant in today's world. Some expressed that they would now prefer purchasing handloom products over synthetic alternatives. They also valued the interactive nature of the session, which allowed them to ask questions and share their perspectives. The overall feedback indicated that the program not only raised awareness but also inspired behavioral change.

No external organizations or government bodies were involved.

-----

Attached.

Future initiatives will include organizing field visits to local weaving centers and interacting directly with artisans to provide students with practical exposure.

### **COMPUTER APPLICATIONS**

**Staff in-charge: Mrs. A. Kavia**

To create awareness about the importance of small-scale industries in India's economic development. The program aimed to educate students on entrepreneurship, self-reliance, and innovation, while also encouraging them to support and explore opportunities in small industries.

One-day celebration on 30th August, 2025 at Language Lab

30 students from III BCA participated.

Mrs. A. Kavia, Asst Professor, BCA.

The program enhanced students' understanding of the role of small industries in generating employment and promoting rural development. Students learned about government schemes supporting small businesses and gained motivation to develop entrepreneurial skills.

Students appreciated the interactive discussions and awareness sessions, which broadened their perspective on self-employment and industry opportunities. Faculty noted the students' interest and suggested follow-up activities like industrial visits and workshops.

No external organizations or government bodies were involved.

As part of the Jayaraj Annapackiam College Extension Programme (JACEP), various awareness programmes were organized on 11th September 2025 by different departments to promote literacy, health awareness, environmental protection, and social responsibility among students.

An awareness programme on International Literacy Day was jointly commemorated by the Departments of Tamil, English, and Business Administration. The sessions highlighted the importance of literacy as the cornerstone of lifelong learning and empowerment. The Department of Tamil, under the guidance of Dr. A. Jancy Mary, organized its session in Room No. 30, where 15 students of III B.A. Tamil actively participated and discussed inclusive education and equal opportunities. The Department of English engaged 35 students in activities emphasizing the role of literacy in communication, creativity, and social transformation. The Department of Business Administration, led by Mrs. V. Anitha, conducted its session in Room No. J20, with eight students of III BBA reflecting on literacy as a fundamental human right and a catalyst for personal and societal growth. All three departments planned follow-up literacy drives to extend learning beyond the classroom.

The PG and Research Centre of History observed World Suicide Prevention Day to raise awareness about mental health and emotional resilience. The session, coordinated by Dr. M. Anusha Angel, encouraged 35 UG and PG students to cultivate empathy and build supportive communities. Students gained valuable insights into mental well-being and strategies to prevent suicide through understanding and compassion.

In observance of World First Aid Day, the Department of Mathematics, under the guidance of Mrs. K. Kulanthaimala, organized an awareness session for 17 students of III B.Sc. Mathematics. The event emphasized the importance of first aid knowledge in saving lives and the need for public awareness on emergency care practices.

To mark National Nutrition Week, the Departments of Chemistry and Zoology organized awareness programmes based on the theme “Eat Right for a Better Life.” The Department of Chemistry, coordinated by Ms. S. Maria Esther, conducted its session in Room No. 75 with 34 students of III B.Sc. Chemistry, focusing on healthy eating habits and the importance of balanced diets. The Department of Zoology, led by Dr. S. Jarina Banu, conducted an interactive session in Room No. 58 with 43 students of III B.Sc. Zoology. Sriharini of III B.Sc. Zoology delivered a talk highlighting the significance of nutrition for overall health and development.

In connection with National Forest Martyrs Day, the Departments of Computer Science and Computer Applications conducted awareness programmes to honour the 1730 Khejarli sacrifice of the Bishnoi community, who gave their lives to protect trees. The Department of Computer Science, coordinated by Mrs. P. Muthupandeeswari, held its session at 2:00 p.m. with 40 UG and PG students, focusing on forest conservation and environmental ethics. The Department of Computer Applications, led by Mrs. A. Kavaria, organized a similar session at 3:00 p.m. in the Language Lab with 25 UG students, highlighting the importance of sustainable living and ecological awareness.

These awareness programmes collectively fostered student engagement with pressing social and environmental issues. The activities encouraged learners to think critically, act responsibly, and contribute meaningfully to community welfare and nation-building.

As part of the Jayaraj Annapackiam College Extension Programme (JACEP), various awareness programmes were organized on 13th October 2025 by different departments to promote gender sensitization, health and breast cancer awareness, Gandhian values, and animal welfare among students.

The Department of Tamil, observed International Girl Child Day through an awareness programme conducted at 3:00 p.m. in Room No. 29. A total of 19 UG students participated. The session highlighted the significance of protecting and empowering the girl child, emphasizing issues related to safety, education, and equal opportunities. The students gained valuable insights and were encouraged to advocate for the well-being and rights of girl children. The PG & Research Centre of History, observed the 156th Birth Anniversary of Mahatma Gandhi by conducting an awareness programme at 2:00 p.m. in Room No. 1 with 35 UG & PG students. The importance of Gandhi's principle of Ahimsa was explained, and students enthusiastically wrote about his ideals and contributions. The Department of Zoology, organized an awareness programme on World Animal Welfare Day at 3:00 p.m. in Room No. 58. A total of 43 students of III B.Sc. Zoology participated. The session stressed the need to enhance global animal welfare standards and encouraged students to understand their role in protecting animals and the environment.

In observance of Breast Cancer Awareness Day, the Departments of Business Administration and Computer Applications, along with other departments collectively highlighted the significance of Breast Cancer Awareness Month, observed every October. The Department of Business Administration, conducted its programme at 3:00 p.m. in Room No. 20J, with 13 students of III BBA participating. The importance of early detection, regular health check-ups, and preventive lifestyle choices was explained. A special talk by Ms. Hemashree of III BBA focused on self-examination techniques and symptom awareness. The Department of Computer Applications, conducted a similar awareness programme at 3:00 p.m. in the Language Lab with 30 students participating. The session emphasized early diagnosis, self-examination, and community awareness. Other departments such as English, Mathematics, Chemistry, Physics, Computer Science, Commerce, and Commerce with Computer Applications acknowledged the observance of Breast Cancer Awareness Day and encouraged students to stay informed about women's health, early detection, and preventive care, thereby contributing to the broader institutional effort of spreading health awareness.

These awareness programmes across departments fostered student engagement with gender equality, health consciousness, Gandhian principles, and animal welfare. The activities motivated students to act responsibly and contribute meaningfully to social, moral, and health-based awareness initiatives under JACEP.

As part of the Jayaraj Annapackiam College Extension Programme (JACEP), all departments of the college collectively organized a Herbal Plant Cultivation Programme on 18th October 2025. The initiative aimed to create awareness among students about the significance of herbal plants and to encourage them to cultivate and preserve medicinal plants in their homes.

With the objective of promoting environmental consciousness, natural healing practices, Indian Knowledge system and sustainable living, students from various disciplines participated in the event. The students were guided to plant them at their homes and nurture their growth. The programme was organized in collaboration with the World Book of Records under the JACEP initiative.

A total of 1500 students enthusiastically took part in the programme. They expressed keen interest in planting and maintaining the herbal saplings, acknowledging the importance of increasing greenery and incorporating herbal plants into daily life. The activity instilled a sense of responsibility towards nature and encouraged students to actively contribute to environmental protection. The programme made a significant impact on the student community by strengthening awareness about herbal conservation, ecological balance, and sustainable lifestyle practices.

## Report -20.12.2025

### **COMMERCE**

**Staff in charge:** Dr. M. Chitra Devi

International Mountain Day students of the Department of Commerce, organized a program to highlight the importance of the Mountain and safe the environmental protection.

A one-day program was organized International Mountain Day on 20h December 2025 at 3:00 p.m. III-B.Com Class Room 15.

40 students from III Commerce participated.

Informative session on the origin, growth, and global significance of International Mountain Day.

International Mountain Day was celebrated in our College on 20 December to create awareness about the importance of mountains and their role in protecting the environment. The programme was conducted with great interest and enthusiasm by the students. The celebration began with a morning assembly. S. Keerthika explained the significance of mountains in providing fresh water, natural resources, and shelter to many living beings. Students also spoke about famous mountain ranges such as the Himalayas and their importance to our country. Various activities were organized as part of the celebration. A poster-making competition was conducted on the theme “Save Mountains, Save Life”. Many students participated actively and displayed creative ideas. An essay writing activity was also held to encourage students to express their thoughts on mountain conservation.

No external organizations or government bodies were involved.

-----

## Report -19.1.2026

### **BUSINESS ADMINISTRATION**

**Staff in charge: V. Anitha**

To highlight the significance of education in promoting inclusive and equitable quality learning opportunities for all and to create awareness about the role of education in sustainable development.

A one-day awareness programme on International Day of Education was conducted on 19th January 2026 at Room No. J20.

8 students from III BBA actively participated.

Mrs.V. Anitha, Asst Professor in BBA

8 students were benefitted.

The programme provided students with a valuable platform to understand the importance of education as a foundation for personal growth and social progress. Through active participation and discussions, we were able to enhance our communication, leadership, and critical thinking skills. The interaction on the role of education in shaping responsible citizens encouraged us to think beyond textbooks and relate learning to real-life situations. Sharing ideas and listening to diverse viewpoints helped us realize how education empowers youth to contribute meaningfully to society. Overall, the event boosted our confidence, strengthened our sense of responsibility, and motivated us to pursue lifelong learning for individual and community development.

No external organizations or government bodies were involved.

-----  
attached

It is planned to organize regular follow-up sessions and actively involve students in community-based learning activities that promote creativity, critical thinking, problem-solving, and social responsibility. These initiatives will help strengthen students' academic understanding while also enhancing essential life skills and civic awareness.

To promote ethical and corruption-free voting practice under the topic “The Voice of Young Voters”

One-day program on 29th January, 2026

13 students of I M. Sc. Chemistry participated.

Ms. S. Maria Esther, Assistant Professor and Students of I M. Sc. Chemistry

13 students benefitted.

Selvi G. Pradeepa of I M.Sc. Chemistry highlighted that young citizens play an important role in choosing responsible and development-oriented leaders. She emphasized that the youth should vote for leaders who focus on key areas such as education, medicine and healthcare, and agricultural development, which are essential for the progress of the nation.

Selvi Abisha of I M.Sc. Chemistry stressed that voters should not be misled by false promises or influenced by caste, religion, or regional differences. Instead, they should vote for capable leaders who work for unity, equality, and national development. Ms. S. Maria Esther, Assistant Professor of Chemistry, also stressed the importance of voting with honesty and responsibility. She expressed that young voters should stand firmly against corruption, support leaders with clean governance, and contribute to building a corruption-free society.

In observance of World Puzzles Day, the students of the Department of BCA, JACEP, organized a programme to highlight the importance of puzzles in enhancing logical thinking, problem-solving skills, creativity, and cognitive development among students. The programme aimed to promote analytical skills and teamwork through engaging puzzle-based activities.

A one-day programme was organized on World Puzzles Day on 29th January 2026 at 3:30 p.m. in the Language Lab.

The session included interactive puzzle-solving activities and discussions that encouraged active participation.

30 students from III BCA participated.

Mrs. A. Kavia, Assistant Professor, Department of BCA, conducted the session and guided students through various puzzles such as logical puzzles, word puzzles, and brain teasers. Educational materials and worksheets were used to facilitate learning.

30 students benefitted by improving their logical reasoning, critical thinking, concentration, and problem-solving

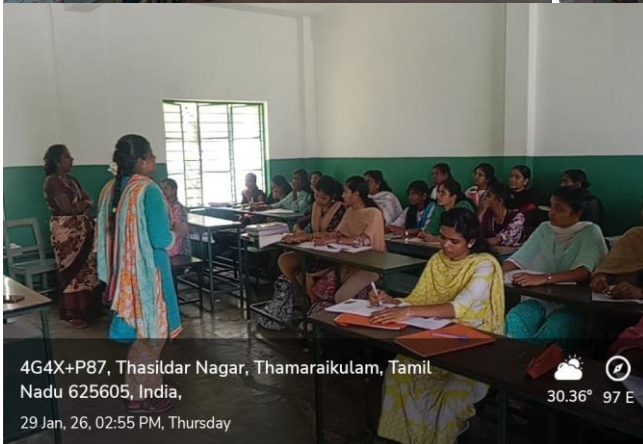

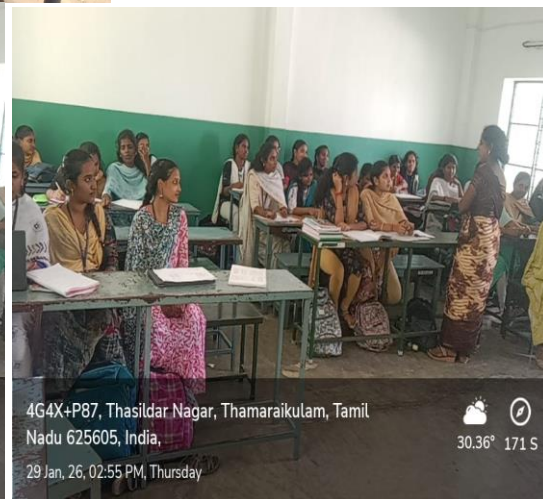

abilities. The activities helped students understand the importance of puzzles in academic learning and real-life decision-making.

The programme was effectively coordinated by Mrs. A. Kavia. Students appreciated the interactive nature of the session and found the puzzles engaging and intellectually stimulating. The programme boosted students' confidence and encouraged them to approach problems with creativity and clarity.

No external organizations or government bodies were involved.

-----  
Attached.

**Staff in charge: A. Kavia**

On 27th February 2026, the students of the Department of BCA, JACEP, organized a Rabies Awareness Programme to educate the local community about the causes, symptoms, prevention, and treatment of rabies. The main objective was to create awareness about the importance of vaccination, responsible pet care, and immediate medical attention in case of animal bites.

As part of the awareness initiative, students distributed informative pamphlets to the local residents on 27th February 2026. The activity was carried out in nearby residential areas to spread knowledge about rabies prevention and safety measures.

30 students from III BCA actively participated in the pamphlet distribution and awareness campaign.

Pamphlets containing detailed information about rabies prevention and safety measures were prepared and distributed. Mrs. A. Kavia, Assistant Professor, Department of BCA, coordinated the activity and guided the students throughout the awareness drive.

The local residents benefited from the awareness campaign by gaining knowledge about rabies transmission, preventive vaccination, and first-aid measures to be taken in case of dog or animal bites. The programme contributed to promoting public health awareness in the community.

The local residents appreciated the initiative taken by the students. The activity helped students develop social responsibility and communication skills while creating awareness about an important public health issue.

No external organizations or government bodies were involved.

-----

Attached.

To organize more community outreach programmes focusing on health awareness, sanitation, and preventive healthcare to strengthen social responsibility among students.

**Staff in charge: V. Anitha**

The objective of this activity is to develop creativity and practical skills among students through wall hanging making. It aims to encourage innovative thinking, promote eco-friendly craft ideas, and enhance entrepreneurial skills. The activity also helps students explore opportunities in handmade decorative products and small-scale business ventures. A one-day skill development program on Wall Hangings Making was conducted on 14th March 2026 in Room No. J7 at the Management Block.

A total of 13 students from III BBA actively participated in the program along with faculty.

Mrs. V. Anitha, Assistant Professor in Business Administration, organized the program. A live demonstration was given by Ms. M. Annapoorani (III BBA), who explained the step-by-step procedure of making creative wall hangings. Materials such as cardboard, colored papers, threads, beads, glue, fabric pieces, and decorative items were used. Students gained hands-on experience in making wall hangings and improved their artistic and creative skills. The activity helped them understand how simple and low-cost materials can be transformed into attractive decorative products. It also motivated students to think about starting small craft-based businesses.

Students expressed that the demonstration by Ms. M. Annapoorani was very effective and easy to understand. They

enjoyed the practical session and appreciated the opportunity to learn a new creative skill. Many students showed interest in participating in more such workshops.  
No external organizations or government bodies were involved.

-----  
Attached.

Future initiatives will include organizing advanced handicraft workshops and conducting exhibitions to showcase and sell student-made products, encouraging entrepreneurship.

## Report-12.03.2026

**Staff in charge: Mrs. V. Anitha, Assistant Professor in Business Administration**

**Group Name: People Organization**

The objective of this activity is to develop creativity and entrepreneurial skills among students through thread bangle making. It aims to provide hands-on training in crafting, encourage self-employment opportunities, and promote small-scale business ideas. The activity also enhances students' artistic abilities, patience, and innovation. A one-day skill development program on Thread Bangle Making was conducted on 12th March 2026 in Room No. J20 at the Management Block.

A total of 13 students from III BBA actively participated in the program along with faculty members.

Mrs. V. Anitha, Assistant Professor in Business Administration, organized the program. A live demonstration was given by **Ms. Priyadharshini**, who explained the step-by-step process of making thread bangles.

Materials such as plastic bangles, colorful threads, glue, stones, beads, and decorative items were used. Students gained practical knowledge through the live demonstration and hands-on practice. The session improved their crafting skills and helped them understand how handmade products can be turned into small business opportunities. It also enhanced their confidence and creativity.

Students shared that the demonstration by Ms. Priyadharshini was very clear and helpful. They found the session interesting, interactive, and easy to follow. Many students expressed interest in learning more such skill-based activities.

No external organizations or government bodies were involved.

Attached.

Future plans include organizing advanced craft workshops and exhibitions to promote student products and entrepreneurial initiatives.
