Report on Orientation Programme

The Orientation Programme for the Counselling Team members was held on Friday, 26th September. In this session, Mr. P. Rajan, Founder and Counselling Psychologist at Mind Spire Foundation, Kailasapatti, explained how to identify students' performance levels. He stated that a score range of 32–40 indicates an Excellent performance, reflecting strong scholastic aptitude and thorough preparation for higher academic tasks. Scores between 24–31 are considered Good, showing above-average aptitude, though some areas may need reinforcement. A score within the 16–23 range represents an Average performance, suggesting moderate aptitude and the need for improvement in weaker areas. Scores below 16 fall under the Needs Improvement category, indicating that substantial skill-building in core areas is required. The questions will be distributed to the students, and the ward staff will guide them if needed.
